[Male voice]: One of the questions you may have is where exactly is WSU? Here is the United States of America. Above is Canada and below is Mexico. Now, look at the United States – the two sides are commonly referred to as east coast and west coast. You may know cities along the east coast like Orlando, Florida; New York City; Boston, Massachusetts; and Washington DC. Washington State University is not in Washington, DC, but closer to cities on the west coast. You may recognize cities such as Los Angeles, California; San Francisco, California; Portland, Oregon and Seattle, Washington. Seattle is in the same state as WSU. We are located in an area known as the Pacific Northwest. Two of the major cities in the state of Washington are Seattle and Spokane. How far away are we from those cities? Good question. If you flew from Seattle to WSU, it would be a 1-hour flight. If you would do it by car, it would be about 5 hours. WSU is located 80 miles south of Spokane in an amazing little city called Pullman, Washington. If you drove from Spokane to WSU, it would be about 90 minutes. Pullman will be your new home during your university experience.
